

Petition

U.S. Application No. 10/820,993

Attorney Docket No. ZLX-HUL-003

Hand Delivered**REMARKS**

Applicant's representative apparently filed the application without FIG. 1. However, Applicants' invention is fully described without FIG. 1 since the invention is directed to the chemical composition of certain layers. Additionally, FIG. 1 is fully described in paragraph [0053] such that one of ordinary skill would have not need FIG. 1 to understand the invention. Moreover, one of ordinary skill would have been able to draw FIG. 1 from paragraph [0053] since the sequence of the recited layers would be self evident to one of ordinary skill in the art. Accordingly, since the omitted FIG. 1 is unnecessary to the understanding of the invention, since references to FIG. 1 and its reference numerals have been eliminated by Amendment (attached), and since a signed declaration has been filed in the response to the Notice Incomplete Nonprovisional Application (attached), Applicants respectfully petition for a filing date of April 9, 2004 be accorded to this application.

Applicants respectfully request a refund of the petition fee for this paper.
